

STEM Club

Dear 7th Grade Students and Parents;

Do you have a strong interest in Math? Science? Engineering? Or Technology? If so, STEM Club may be for you!

Students who join STEM Club will be participating in various activities related to STEM disciplines. Our focus will be on Legos and we will explore various concepts through the use of motorized Lego models and simple programming.

The ETJMS STEM Club will be run by Ms. Pilarski and is open to 7th grade students. Due to the limited materials and spaces available, the STEM Club will be limited to 12 students. If more than 12 students are interested, participants will be selected through a random lottery. All participants will be notified of their enrollment on March 7th.

STEM Club will meet three times; on Friday, March 8th from 2:30 - 4:00, Thursday, March 21st from 2:30 - 4:15, and Friday, March 22nd from 2:30 - 4:15 PM. Parents will be responsible for transportation. All participants must commit to attending all three sessions.

Please feel free to contact Mrs. Surreira with any questions. If your child is interested in being a participant, please complete the permission slip and return it to Mrs. Surreira prior to March 7, 2019.

Thank you,

Mrs. Surreira
surreiras@plymouth.k12.ct.us

I give permission for my son/daughter to participate in STEM Club. I will provide transportation for my child from school to home at the end of each of the three days of the program.
